

1m

FEATURES

- Its naturally compact, mounded habit makes it great choice for those wanting a well shaped plant with little effort
- Performs well in the heat
- The green foliage is set off by its abundant flowers nearly all year round
- Vivid colour scheme

USES

- Low borders and hedging up to 70cm
- Containers to brighten up entertainment areas
- Mixed garden beds
- Patios and courtyards
- Formal garden plantings
- General garden and landscape use

POSITION

Plant in a well drained soil. Prefers a full sun location for optimum results

CARE

Responds well to a quick prune, however this is rarely required as its habit is naturally so dense and compact. Feed with a slow release general purpose fertiliser. Has low water requirements once established
