

Casuarina glauca "Cousin It"

full sun

coastal

drought tolerant

width
1.5m

FEATURES

- Extremely tough native ground cover
- Spreading cascading habit that will effectively cover all obstacles such as stumps and pipes
- Dense thick foliage of leafless stems
- Prostrate form of she-oak, amazing and quirky!
- 1.5mW x 0.3mH

USES

- Gardens, embankments and retaining walls
- Ground cover for weed suppression

POSITION

Tolerant of a wide range of soil types. Found in estuarine swamps and tidal flats, so is tolerant of poorly drained soils

CARE

Light frost tolerant. Responds well to extra moisture and general purpose garden fertilisers. Tolerates dry conditions. Lightly prune to keep tidy. If planted in the ground, little irrigation is required
