

Convolvulus "Silvery Moon"

full sun

drought tolerant

frost hardy

60cm

FEATURES

- A small hardy shrub
- Provides interest with it's silvery foliage
- Profusion of large white funnel shaped blooms in summer
- Ideal for 'no fuss' landscaping as well as those with limited space
- Non-invasive and easy to grow for low maintenance areas

USES

- Perfect for edging and mass planting
- Attractive low hedge for borders
- Mediterranean, cottage or "white" gardens

POSITION

Performs best in full sun with well draining soils

CARE

Water requirements are low once established. Lightly prune after main flowering period to assist with maintaining shape and promotes vigour. Apply slow release fertiliser in spring.
