

Dietes "White Tiger"

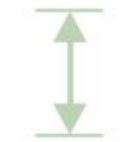

full sun

part shade

drought tolerant

height
60cm

FEATURES

- Thrives in hot and dry conditions
- Summer flowering
- Ornamental foliage all year round in a striking cream and green variegation
- Tolerates frost and hot, dry positions
- White iris-like flowers with yellow throat markings all summer
- Compact and clump forming
- Grows 60cmH x 50cmW

USES

- Commercial / Domestic landscaping
- Water wise gardens
- Multiple plantings for a dramatic effect
- Small gardens or narrow spaces

POSITION

Full sun or part shade.
Works in most well draining soil types

CARE

Water once when you plant it, then forget it. Thrives in hot, dry conditions. Pruning is not required, the new flowers form on the old flower stems. Remove older foliage to tidy
